

# BM Series Automatic Banding Machine

Smart banding solution for modern product packaging

Paper / OPP Film

PLC Touch Screen

Online Printing Option

Auto Line Integration

# Clean, Secure and Cost-Efficient Banding

The BM Series Automatic Banding Machine is designed to improve packaging appearance, reduce material usage and support promotional banding for food, medical, printing, cosmetics and industrial products.

## Lower Material Cost

Supports ultra-thin OPP film and paper banding for efficient packaging operations.

## Brand-Ready Packaging

Optional pre-printed bands help improve shelf impact and product presentation.

## Flexible Materials

Paper tape and OPP film options support many product types and packaging styles.

## Easy Operation

PLC control with touch screen interface for stable and simple operation.

## Online Printing

Optional system prints date, batch, barcode, QR code and variable data on banding material.

## Line Integration

Can connect with existing production lines and automatic pushing systems.

## Typical Applications

Food Packaging | Medical Products | Printing Industry | Cosmetics | Retail Packaging | Logistics
